EDUCATION REQUIREMENTS:

As educators, we love to have our candidates enter our accredited program with a completed secondary education. However, reality teaches us that this is not always possible, especially for those who live outside of North America. *Therefore, we have standardized our educational requirements to the following:*

1. **Candidates** must speak, write and understand English (as our courses, at this point, are only in English)
2. **Candidates** must apply for an accredited program, filling out [the application form](#). That application form requires *a 500-word essay* on the candidate's spiritual goals as well as the degree they seek.
3. **Candidates**, *whose application is accepted*, enter the degree program **on a trial basis**.
4. **Candidates** *who receive a 75% average of their first three courses continue to earn their degree and receive the applicable credits towards their bachelor's degree.*²

We do this so:

- **Students** are set up to **succeed** in the degree program.
- **Students** receive or have reinforced a **solid foundation** upon which to build a faith life.
- **Students** receive **study techniques and disciplines** needed to take a degree program.
- Students can grasp the call of the Spirit to secure solid Biblical roots to face the end times in which we live.
